

KOLBE'S FORGENT® SERIES COMPLEMENTARY MULTI-SLIDE DOORS

Designed for strength, durability and energy efficiency, the Forgent Series is the perfect solution for new construction or replacement projects. This high-performance product line has expanded to now offer two multi-slide door configurations to complement Forgent Series All Glastra® products.

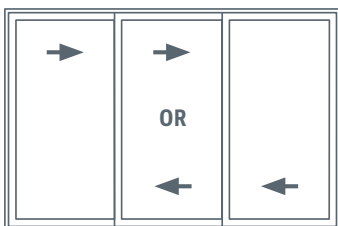

COMPLEMENT YOUR DESIGN WITH EXPANSIVE OPENINGS

The Forgent Series' complementary multi-slide doors offer indoor-outdoor living solutions with larger openings, broader views, and convenient passage to the landscape. Two configurations are available to suit the expanse of your space.

Forgent Series complementary multi-slide doors provide:

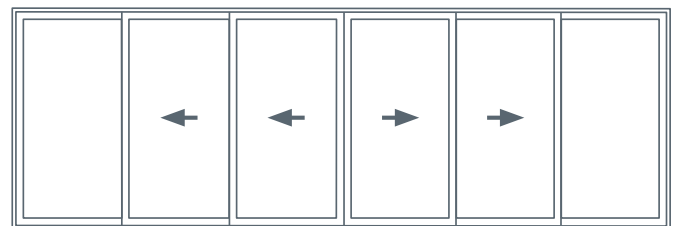

- 3- or 6-panel stacking configurations
- Energy efficient, dual glazed Solar Low-E glass
- Contemporary square handle set with dual-point lock
- Bronze anodized sill

CONFIGURATIONS

**IMPACT
RATED**

The 3-panel multi-slide door meets HVHZ impact requirements and accommodates a maximum 12-foot-wide by 8-foot-tall opening. Two doors can be configured to slide in either direction, with a stationary end panel. Custom sizes are also available.

The 6-panel multi-slide door unit accommodates a maximum 23-foot-wide by 8-foot-tall opening. The end panels are stationary, with bi-parting operation. Custom sizes are also available.

FINISHES

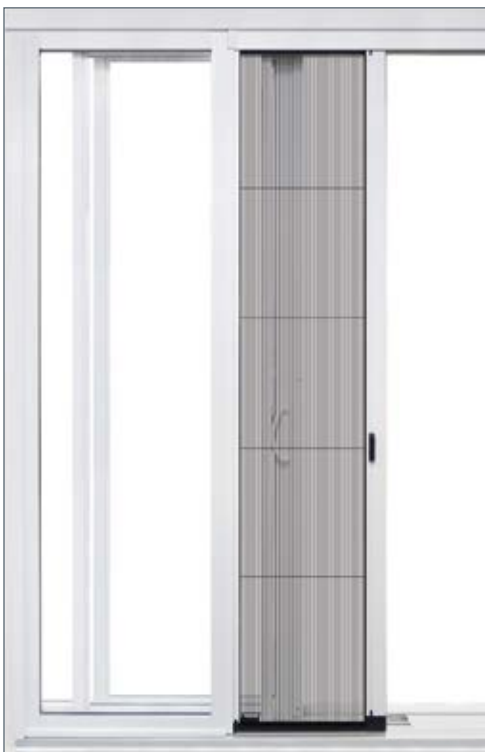

Kolbe's Forgent Series offers popular exterior and interior colors and hardware to coordinate with trim and décor.

COMPLEMENT ALL GLASTRA UNITS

Forgent Series multi-slide doors are available with a Cloud or Sahara interior and exterior color. For units with a Cloud interior, a Bronze or Midnight acrylic film can be applied to the exterior. Doors with Bronze or Midnight exteriors can also be finished on the interior with a Bronze or Midnight acrylic film, respectively.

Forgent Series interior and exterior films (Midnight and Bronze) are compliant with and have achieved 307-16 certification from the American Architectural Manufacturers Association (AAMA). The AAMA 307-16 designation specifically refers to Voluntary Specifications for Laminates Intended for Use on AAMA Certified Profiles.
