

Custom to you...

With Origin, the only limit is your imagination.

Your home, your doors – with all the little details just as you want them. As with everything Origin, all of our products are custom to you, and the Bi-fold Door is no exception.

Ranging from one to eight door sets, and with door leaves as narrow as 1.5' and as wide as 4' (non-impact), there is a configuration available guaranteed to match your requirements. No matter which setup you choose, you can be assured that

the slim sightlines will create a sophisticated and timeless feel, helping maximize the flow of natural light into your home.

Choose your overall size, amount of doors, configuration, internal and external color, your preferred threshold option, whether you want the doors to open in or open out, handle style and hardware color, then let us create the architectural dream that is the Origin Bi-fold Door.

Handled with care...

The handles of an Origin Door are the perfect finishing touch to the exquisitely designed system.

Choose from a selection of elegant handle styles and rest assured that they have been designed and manufactured with the same care and dedication as every other component.

In addition to striking the optimum balance between superior strength and sleek design, our handles are exhaustively cycle tested to ensure they mirror the flawless functionality of the doors and stand the test of time.

Certain handle models can also be color coordinated in any RAL color.

The slave and D-handle – of which have been specifically designed by Origin to withstand a pull of 1600 Newtons – are available in any one of the 150 RAL shades or a stainless steel finish, so they can be matched or contrasted to the door itself.

Life with no boundaries...

The slim sightlines and expanse of space offered by the Origin Bi-fold Door can transform a home, removing the barrier between inside and out. The custom nature of every Origin Door means that you can reduce that barrier further through a choice of thresholds.

Weathered and non-weathered options are available, so you can pick the right option for your home depending on where the doors are going and how exposed to the elements they will be.

Non-weathered options offer a level floor finish and create a seamless transition between inside and out. Non-weathered options are largely recommended for internal usage.

With our cleverly engineered weathered option, the track can be recessed and sunk into the floor, leaving a minimal step into your new space. This threshold type ensures a home is kept watertight and weather protected.

Weathered and non-weathered thresholds are available.

Weathered threshold-standard.

Non-weathered threshold.

Mid-rail option...

Helping further broaden your design possibilities, Origin offers the option of having a mid-rail pre-installed.

Paying tribute to an almost lost notion of a traditional singular back door, the mid-rail offers more privacy than a conventional door, and can be specified on any style whether it be for the bi-fold, corner, French or single door sets.

Elegantly executed, the mid-rail is fixed horizontally and is available in two options – one being a 60:40 split, and the other a 50:50 split.

Door types...

Bi-fold Door

The door that started it all.

Origin Bi-fold Doors come in configurations ranging from two to eight door sets, and can create an entirely new living space; all it takes is a gentle push.

Each door can be manufactured as narrow as 2' and as wide as 4' (non-impact), and the folding and sliding choices are there to help ensure you make the most of your space requirements.

Please see page 26 for a rough indication of sizes and popular configurations.

Corner Sets

Put simply, we know that there are times when conventional door sets just won't do.

No matter the type of build or how unconventional the layout, we can work with you to ensure that you're making the right use of your space with the right door.

Sets of corner bi-fold doors allow for a point of light in a previously shaded corner, and can be manufactured with or without fixed posts for a truly unrestricted panoramic view.

French Door

Traditional style with a modern touch, Origin French Doors are great for areas where space is at a premium, to ensure you get the most from your view.

Hinged to open a full 180 degrees, they can be manufactured to open inwards or outwards to maximize on space, but will only open as far as the brick or wall will allow.

French doors can stand alone in openings ranging from 2.6'-8'. Alternatively, fixed panels can be added to either side to fit into larger openings.

Single Door

Origin offers a single door option, which is manufactured with the same care and attention to detail as the rest of the Origin Home, ensuring a beautifully harmonious look.

Our single door consists of the same slim profile as our bi-folding doors, and can be used as a side exit door or utility door.

Single Door

Manufactured in the same high grade aluminum as every other door type, the single door is great for ensuring a matching, complementary style. It can be used for any purpose including side exit, utility or even back door.

Our recommended 2 door configurations:

2 Door 2+0

Our 2 door sets work for small openings. This door type comes with a mullion and can be specified with a slave locking barrel.

2 Door French Door

The Origin French Door matches our bi-folding doors perfectly. It comes with our leading multipoint locking system.

Our recommended 3 door configuration:

3 Door 3+0

We recommend the 3+0 configuration as it allows for all doors to be folded back in the same direction while incorporating an everyday access door.

Also available:

3 Door 2+1

Configurations continued

Our recommended
4 door configuration:

4 Door 3+1

The 3+1 is a favorite because it will give an everyday access door, multipoint lock and no mullion. It also can offer a French Door effect one side, with the additional benefits of bi-folds on the remaining doors.

Our recommended
5 door configuration:

5 Door 5+0

This configuration works almost identically to the 3+0 configuration, meaning it comes with an access door, multipoint lock and no mullion.

Also available:
4 Door 4+0

4 Door 1+1
with fixed side panels

Also available:
5 Door 4+1

5 Door 3+2

Our recommended 6 door configuration:

6 Door 3+3

Ideal for larger openings, the 3+3 is one of the most diverse configurations as it can operate as a French door at the center, have 3 doors opening one way while the other 3 remain closed, or they can be opened fully with 3 doors folding each way to offer complete symmetry.

Our recommended 7 door configuration:

7 Door 3+4

This door set will allow you to have an everyday access door, with our multipoint lock. We also recommend this configuration due to its ease of operation.
